

# 2 Port PCI Serial

## PCI RS-232 Serial Interface

Item # 7202

The 7202 PCI serial interface provides two RS-232 serial ports capable of data rates to 460.8K bps. Each RS-232 port implements all modem control signals for maximum compatibility with a wide range of peripherals. The 7202 utilizes 16C850 UARTs that provide 16-byte Tx/Rx FIFOs. Ordering options allow the choice of UARTs with larger FIFOs, support for custom baud rates, and 9-bit protocols. Sealevel's SeaCOM software utilities make installation and operation easy.

### Unique Features

- ▶▶ 16C850 buffered UARTs with 16-byte FIFOs
- ▶▶ Data rates to 460.8K bps
- ▶▶ All modem control signals implemented
- ▶▶ Two DB-9M connectors

### Technical Specifications

Number of ports	2
Communications chip	16C850
Max data rate	460.8K bps
Max data distance	Up to 50 ft.
Operating temperature	0 - +70° C
Storage temperature	-50 - +105° C
Humidity range	10 - 90% R.H.
